Online MACC/MSA/Taxation

Posted by AdamantiumPI - 2011/06/08 19:21

_____

What are some cheap Masters in Accounting/Taxation (MACC, MSA, Taxation) programs by regionally accredited colleges? I am looking for distance education/ online degrees.

_____

Hello,

The Get Educated online degree directory lists 91 accredited online accounting degrees -- 17 online masters with accounting or taxation specialties.

To see this list of accounting distance masters, go to the home page and type "accounting" into the big white open search box labeled FIND A DEGREE. This keyword search feature will pull up 91 accredited online accounting degrees

Then use the FILTERS on your LEFT to select: Masters - Other.
This will give you 17 online masters accounting taxation.

Once you have this list, you can use the ORDER by bar at the top of the search to ORDER BY COST or rank all these distance degrees.

You will see all the online masters accounting ordered by cost for the entire degree.

You will see these 4 online masters accounting ranked in this order by cost.

GetEducated.com Online Degree Cost Rankings - Cheapest Online Accounting Masters

Franklin University Online Masters Accounting - $15,450

Colorado State University Online Masters Accounting - $18,600

SUNY Utica Accounting Online Masters - $18,909

Georgia Southern University Online Masters Accounting CPA - $20,770

All 4 of these top ranked cheapest online degrees come from regionally accredited brick and mortar colleges (which you asked about before in terms of choosing an online MBA)

You can also consult our static official online degree rankings of distance masters management to see if there are any accounting majors on that list.

These ranking tables are done every 2 years and compare the total estimated cost of each degree for you the same semester -- such as Spring 2010 -- to identify the comparative rankings of broad type of degrees. These ranking lists also give you the average cost or benchmark data for certain types of

distance degrees so you can see what a typical online masters degree costs.

You can also use the ORDER button on any degree search you undertake to get all the degrees now in our directory to sort for you by total estimated degree cost.

After you have your online accounting degrees ranked by cost use the FILTERS on your LEFT in the search to limit or narrow your search. You can FILTER type of accreditation and see only AACSB accredited online degrees, for instance. You can also use the filters to see only those degrees that are 100% online and that require no campus visits.

Good Luck!
