Hi Matt,

It's hard to recommend the best online university for your online taxation masters without knowing more about how you measure "best" -- what is your current educational background, current job, where are you located -- what state -- in terms of work? Are you a CPA already? Is there a reason you might want a MBA vs a taxation master of science degree?

Get Educated profiles the following online masters in taxation, all of which vary by cost, student reviews, type of school, and so on. You can look at each and read the reviews as well as see the cost.

There are also options for online accounting masters degrees that are neither MBAs nor ms degrees in

taxation.

Try this page for the most affordable online masters in accounting we have reviewed and rated. These are MS or related degrees, not MBA degrees:

Your career goals and current status (CPA or not?) will have to be looked at to determine the best type of masters in the taxation area.
