You can "grade" and leave a "review" of every online degree or certificate in the GetEducated database. REAL online student who are enrolled in an online degree program OR who are almuni of any of the programs in our database can also register and leave a review as a VERIFIED STUDENT.

A VERIFIED STUDENT logo shows up on the review itself if it is left by a real online student.

We don't yet have enough data to publish a formal ranking of all 3,000 degrees in our directory BUT a BIG shout out goes to the GeorgiaWeb Online MBA degree program in terms of student satisfaction. 50 Verified Online Students have graded and reviewed this MBA. They give the program a collective "A."
