Was wanting to get some info on a place called "Western Advance Central University" WAC University

Posted by scott127 - 2011/12/21 14:16

IS this a real accreditted university or are they a degree mill.

Hi Scott,

Western Advance Central University is NOT accredited by any recognized agency to award college degrees in the USA. They claim operation out of Belton, Texas in recent paid press releases on Yahoo News, but in Texas it is illegal to use or confer a degree that is issued by any school that lacks proper accreditation.

Be careful.
WASC may be a scam if what you seek is a properly accredited online degree.

Please see the diploma mill scam report for Western Advance Central University diploma mill scam report for Western Advance Central University.

We have asked the Texas Higher Education Agency to look at this school and will post updates as they come in.

For more on what accreditation is and why it matters see:
Online College Accreditation

If anyone has news on this school please let us know!

Vicky Phillips
