master of dental science online

Posted by dr.mema - 2012/10/09 13:12

_____

I want to ask about any master on line or part time in dental science (any department)?
Please if you know any information tell me.

thank you

_____

Hi Dr. Mema,

What country are you located in or do you seek dental training to practice in?

In the USA there are no masters in medical dental / science online that are designed to prepare one to practice as a licensed dentist. They online masters online in the USA related to dental science are programs for dentists that emphasize things such as learning to manage the business end of dentistry. For example, Oklahoma State University has an online MBA for dentists in the USA that allows practicing licensed dentist to study how Oklahoma State University has an online MBA for dentists to operate a dental business.

Is your goal to practice as a dentist?

All the best
Vicky Phillips, Founder
