Hi Kashif,

WE would not recommend enrolling in Must University.
Please see the Get Educated Diploma Mill scam report on this school for details:
http://www.geteducated.com/diploma-mill-police/degree-mills-list/must-university-accreditation

GetEducated only recommends schools that are properly accredited to issue degrees in the USA and Must is not accredited by any recognized agency to award degrees in the USA.

We do have a screened database of 687+ online bachelor programs that are properly accredited which you can search free at our main site:

All the best
