New Online Associates Degree - Iowa

Iowa Central Community College has a new Online Associates Degree in Logistics and Transportation Management.

The program, previously offered only through residential courses in Fort Dodge, IA is now available to students anywhere through distance learning.

Online courses combine liberal studies and core courses in logistics and transportation management with a focus on the areas of business logistics, domestic and international transportation, purchasing, warehouse management, demand planning, and inventory management.

The new online associates degree program is scheduled to begin June 31.
Iowa Central Online is a state community college in Fort Dodge, Iowa (IA).
