University of South Dakota

_____

I was planning to pursue the 51 credit online MBA from University of South Dakota. My main goal is to change my career stream to consulting (Finance or Supply chain) from IT analyst/lead.

a) Any reviews on this program? Is it worth spending 2 years and 20 K.

b) Will it help me achieve my goal - Career change?

c) Do they have good class participation, challenging assignments, networking etc.

Thanks in advance.

Regards,
Sunny
