Online doctorate in exercise science

Posted by JLGCSCS - 2013/04/11 17:06

Group:

Does anyone know of any possible future doctorates (Ph.D or Ed.D) in exercise science, kinesiology, human performance, sport science, biomechanics or the like that may come to fruition?

As of right now all I know of that is similar is the Ed.D in sports management offered from the United States Sports Academy, but that is more business oriented.

Thanks.

Hi JL,

WE do have 130 online doctorates in our degree directory:
http://www.geteducated.com/profiles/search/online-phd&SS=Search%20by%20Level%20%3E%20Online%20PHD

WE do list an online doctorate in sports management from Northcentral University Online.

SEE:http://www.geteducated.com/profiles/show/online-degrees/northcentral-university/school-of-education-graduate/76/4082/doctor-of-education---sports-management

Where do you live? In the United States? If so, what state? There may be hybrid doctorates in this area that are offered mostly online with some weekends of a few days on campus.

Tell us more ...we'll see if we can find any options for you.

_____

I live in Tennessee. Middle Tennessee State University and East Tennessee State University both offer Ph.Ds in human performance (exercise science/kinesiology) however they pratically require you to abandon your job and live there.

Thanks for replying.

_____

Hi JL,

This is a tough one!

Kinesiology is not popular as a phd option on campus or online so I am hitting walls in researching this major at the doctorate level.

Some ideas:

The University of Hawaii at Manao offers some online courses toward a PhD in kinesiology
SEE: https://coe.hawaii.edu/academics/kinesiology-rehabilitation-science/phd-program

Do you already have a master's in kinesiology?
Do you want to teach sports or exercise science?
Or are you looking at a career in rehab or applied medicine?
Most distance learning in this area is focused on teaching/coaching.

For anyone who needs a master's below are some we found that would apply:

Online Kinesiology Masters Degrees
The University of Texas System Online

Offers a 100% online master's in kinesiology

University of Texas of the Permian Basin / University of Texas at Tyler / University of Texas - Pan American/ University of Texas at El Paso
http://www.geteducated.com/profiles/show/online-degrees/university-of-texas-online-consortium/school-of-education-graduate/174/6685/master-of-science-in-kinesiology

The University of Wyoming

Online Master of Science in Kinesiology
http://www.uwyo.edu/kandh/graduate-programs/index.html
The M.S. in Kinesiology and Health is also offered off-campus to distance students as a Plan B (non-thesis) option. The area of emphasis for the distance program is physical education teacher education.

Georgia Southern University - College of Health and Human Sciences, Kinesiology
Master of Science in Kinesiology - Coaching Major Only
http://online.georgiasouthern.edu/index.php?link=grad_Kinesiology

University of Central Missouri
College of Health and Human Services, Physical Education Exercise and Sport Science - MS
Online Masters Physical Education Exercise and Sports
http://www.ucmo.edu/ucmonline/

I will keep looking for you ...

Vicky

_____

I have a BS in exercise science and a M.Ed, but would like to pursure a doctorate in the sports/exercise science domains. End goal would be to possibly teach academically and/or conduct research (coaching isn't an interest).

Thanks for the timely response.

_____

Hi JL,

Thanks!

I have put put out feelings to several online universities to see if anyone can help you.
In terms of demand, the market is mostly for master's who need teacher certification or coaching

certification. So that's what is out there.

I will post if anyone responds back to me with leads on an online or hybrid phd close to you.

Please post back if you find a possibility on your own as it would help others searching for rare online learning opps in this area.

Vicky
